

# Week Beginning: 18.9.17

## Y5/6

### English

We are kicking off the year by learning to write explanations about the rainforest, and animals which live there.

In spellings, we will start learning words for our gemstone bookmarks, concentrating on strategies which help us remember the letters within each word.

### Maths

We are learning to round large numbers to the nearest 10, 100 and 1000. We are developing our understanding of place value of numbers with up to 7 digits.

There will be 4 Mathletics activities to complete at home.
