

Week Beginning: 19.10.15

Y5/6

## Literacy

This week we are continuing to explore stories from other cultures. The children will be writing their own myth, explaining the origin of something.

In spellings, we are revising both uses of the apostrophe (contractions and possession).

## Maths

This week, we are investigating measures. The children will be teaching a lesson to their class about how to convert one area of measure.

We will review the place value assessments carried out last week, and set new targets on decimal place value for next half term.
