

# Week Beginning: 31.10.16

## Y5/6

### English

Year 5 and 6 will be working in separate groups for English and maths for two weeks.

This week we are writing time travel diaries about life in Viking times and learning to use ING clauses.

We are learning to spell less common homophones, such as *aisle* and *isle*, *weather* and *whether*.

We are reading *Macbeth*.

### Maths

This week we are working on fractions—how to recognise and make equivalent fractions, how to convert mixed and improper fractions.

We are also adding and subtracting decimals through our new '3 minute drills'.

Our Mathematics tasks are about fractions too.
