

Week Beginning: 9.10.17

Y5/6

English

We are developing techniques used to create effective descriptive writing, including the use of figurative language (similes, metaphors, hyperbole) and describing using all of our senses. We will write descriptions of our own, invented magical shop on Diagon Alley, from the world of Harry Potter.

In spellings, we are revising homophones e.g. there/their, your/you're

Maths

This week we are learning to use formal written methods for division (short and long). Will apply this method when solving multi-step problems later in the week. Keep practising those times tables to earn stickers on your Going for Gold certificate!

There will be 4 Mathletics activities to complete at home.
