

Week Beginning: 12.3.18

Y5/6

English

This week, year 5 will be using their skills from last week to write one final non-chronological report. We will also be using our researching skills to retrieve information about the animals of the Yucatan for our reports.

Year 6 will be writing instructions about what an immigrant would need to do upon arrival in a new country. On Thursday, year 5 and 6 will be responding to Maya Angelou's 'I Know Why The Caged Bird Sings'.

Spellings will be doubling the final consonant to short words when adding suffixes. For example, *sit* becomes *sitting*.

Maths

This week year 6 will be continuing with geometry and translating shapes. Year 5 will be revising the properties of 2D and 3D shapes, followed by using coordinates to plot a shape on a grid.

Please complete your Mathematics tasks at home. Don't forget to practise your times tables!
