

Policy for Intimate Care

The pastoral care of our children is central to the aims, ethos and teaching programmes at Fishegate Primary School and we are committed to developing positive and caring attitudes in our children.

It is our intention to develop independence in each child, however there will be occasions when help is required. The principles and procedures apply to everyone involved in the intimate care of children.

Fishegate Primary School is committed to ensuring that all staff responsible for the intimate care of children will undertake their duties in a professional manner at all times. We recognise that there is a need to treat all our children with respect when intimate care is given. No child should be attended to in a way that causes distress or pain and adults and staff must be sensitive to each child's individual needs.

Intimate care is any care which involves one of the following:

1. Assisting a child to change his/her clothes
2. Changing or washing a child who has soiled him / herself
3. Assisting with toileting issues
4. Supervising a child involved in intimate self-care
5. Providing first aid assistance
6. Assisting a child who requires a specific medical procedure and who is not able to carry this out unaided. *

* In the case of a specific procedure only a person suitably trained and assessed as competent should undertake the procedure. Parents have the responsibility to advise the school of any known intimate care needs relating to their child

Principles of Intimate Care

The following are the fundamental principles of intimate care upon which our policy guidelines are based:

- Every child has a right to be safe;
- Every child has the right to personal privacy;
- Every child has the right to be valued as an individual;
- Every child has the right to be treated with dignity and respect;
- All children have the right to be involved and consulted in their own intimate care to the best of their abilities;
- All children have the right to express their views on their own intimate care and to have their views taken into account; and
- Every child has the right to have levels of intimate care that are appropriate and consistent.

Assisting a child to change his / her clothes

This is more common in our Early Years Foundation Stage. On occasions an individual child may require some assistance with changing if, for example, he / she has an accident at the toilet, gets wet outside, or has vomit on his / her clothes etc.

Staff will always encourage children to attempt undressing and dressing unaided. However, if assistance is required this will be given.

Staff will always ensure that they have a colleague in attendance when supporting dressing/undressing and will always give the child the opportunity to change in private, unless the child is in such distress that it is not possible to do so. If staff are concerned in any way parents will be sent for and asked to assist their child and informed if the child becomes distressed.

Changing a child who has soiled him/herself

If a child soils him/herself in school a professional judgement has to be made whether it is appropriate to change the child in school, or request the parent/carer to collect the child for changing. In either circumstance the child's needs are paramount and he/she should be comforted and reassured throughout. The following guidelines outline our procedures but we will also seek to make age-appropriate responses.

- The child will be given the opportunity to change his / her underwear in private and carry out this process themselves.
- School will have a supply of wipes, clean underwear and spare uniform for this purpose. (A supply of clean underwear and spare uniforms are available in the brown cupboards in the downstairs hall).

Basic hygiene routines

- Always wear protective disposable gloves.
- Seal any soiled clothing in a plastic bag for return to parents.

Assisting a child who requires a specific medical procedure and who is not able to carry this out unaided.

Our Supporting Pupils with Medical Needs Policy outlines arrangements for the management of the majority of medications in school. Parental permission must be given before any medication is dispensed in school. A small number of children will have significant medical needs and in addition to the arrangements included in our Supporting Pupils with Medical Needs Policy will have an Individual 'Care Plan'. This Care Plan will be formulated by the relevant medical body. If required, school staff will receive appropriate training.

School Responsibilities

All staff that are appointed to work at Fishergate Primary School are recruited in accordance with the statutory guidance Keeping Children safe in Education (May 2016) and 'Safeguarding Children and Safer

Recruitment in Education' which came into force in January 2007 The 'Recruitment and Selection Checklist' contained in this document is used to ensure the full range of checks are carried out so as to minimize the possibility of children suffering harm from those whom they consider to be in positions of trust. Only those members of staff who are familiar with the intimate care policy and Policy for Safeguarding are involved in the intimate care of children.

Where anticipated, intimate care arrangements are agreed between the school and parents and, when appropriate and possible, by the child. Consent forms are signed by the parent and stored in the child's file. Only in emergency would staff undertake any aspect of intimate care that has not been agreed by parents and school. Parents would then be contacted immediately.

The views of all relevant parties should be sought and considered to inform future arrangements.

If a staff member has concerns about a colleague's intimate care practice he or she must report this to the Designated Teacher for Child Protection.

Guidelines For Good Practice

All children have the right to be safe and to be treated with dignity and respect. These guidelines are designed to safeguard children and staff. They apply to every member of staff involved with the intimate care of children.

Adhering to the following guidelines of good practice should safeguard both children and staff.

1. Involve the child in the intimate care. Try to encourage a child's independence as far as possible in his or her intimate care. Where a situation renders a child fully dependent, talk about what is going to be done and, where possible, give choices. Check your practice by asking the child or parent about any preferences while carrying out the intimate care.
2. Treat every child with dignity and respect and ensure privacy appropriate to the child's age and situation. Care should not be carried out by a member of staff working alone with a child.
3. Make sure practice in intimate care is consistent. As a child may have multiple carers a consistent approach to care is essential. Effective communication between all parties ensures that practice is consistent.
4. Be aware of your own limitations. Only carry out activities you understand and feel competent with. If in doubt, ask. Some procedures must only be carried out by members of staff who have been formally trained and assessed.
5. Promote positive self-esteem and body image. The approach you take to intimate care can convey lots of messages to a child about their body worth. Your attitude to a child's intimate care is important. Keeping in mind the child's age, routine care can be both efficient and relaxed.
6. If you have any concerns you must report them. If you observe any unusual markings, discolouration or swelling report it immediately to the Designated staff for Child Protection.

If a child is accidentally hurt during intimate care or misunderstands or misinterprets something, reassure the child, ensure their safety and report the incident immediately to the designated staff. Report and record any unusual emotional or behavioural response by the child. A written record of concerns must be made available to parents and kept in the child's personal file.

Appendix 1

Parental permission for Intimate Care

Should it be necessary, I give permission for _____ to receive intimate care (e.g. help with changing or following toileting).

I understand that staff will endeavour to encourage my child to be independent.

I understand that I will be informed discretely should the occasion arise.

Signed: _____

Adult with parental responsibility for: _____
