

Week Beginning: 04.12.17

Y5/6

English

This week, we are planning and writing a Harry Potter themed story of our own. We will be using the skills we have worked on this term to help write stories J.K. Rowling would be impressed by! We will also be practising our punctuation, focussing on colons and semi-colons.

Our spellings this week will be the -ly suffix.

Maths

This week, we are looking at measures; we will be using metric measures for length, capacity and weight. We will be converting between different units of measure so we will be multiplying and dividing by powers of 10.

There will be 4 Mathletics activities to complete at home.
